Wilderness Movie

<https://www.nps.gov/subjects/wilderness/multimedia.htm>

- a. Impact Monster - <https://www.youtube.com/watch?v=Lr5gEuSGIdU&feature=youtu.be>

This is a great cartoon video that younger scouts can relate to in understanding our impact on the earth. The impact monster skit is another great opportunity to get Scouts, and not just Cub Scouts but Scouts of all ages, involved in acting and presenting what is shown in the video. There is even a Wilderness Educators' Evaluation of the Impact Monster Program that was done in 1999 showing the effectiveness of this program:

https://www.fs.fed.us/rm/pubs/rmrs_rp015.pdf

http://www.naturalinquirer.org/UserFiles/File/3_51.pdf

I have used the impact monster skit at numerous Wood Badge Courses. Venture Scouts act the parts and do the impact monster skit shown in the link below.

<https://sectionhiker.com/impact-monster-skit-leave-no-trace-lesson-plan/>

- b. The Astronaut Movie – Awesome movie. Short and to the point. We talk often about the importance of Disposing of Waste properly and even more so about human waste. It's even more important is space. Humorous and serious.

<https://www.youtube.com/watch?v=5JPuaRBTMKs&feature=youtu.be>

- c. Leave No Trace Dude – One of my favorite website for Leave No Trace Activities related to each principle. One activity that I use in almost every course is attached to the email.
